RE: A three way protest Case # 96 598

Gentlemen, We do want to register a legitimate protest and this want be the end

Protest number one; With your letter was a page of several maps diagrams and I dont know what else for no one in our family young or old could see the small print. Please send us something on a bigger scale.

Protest number two; Wait 11 months & three weeks than write us a letter on December 13, 1996 that took 5 days to get thru the Xmas rush, Then you had the nerve to tack on a 20 day reply...Just good old politics...

Protest number three;  
We already know that we are wasting our time but we do want to register our protest & complaint...Furthermore I will complain to elected officials here in Metcalfe Co----I guess it would be fair to say my wounds not fully healed from the screwing that the Cumberland Parkway gave us dome 25 years ago. They wrecked my farm by splitting right down the middle, sestroyed my big spring, A gas-oil well I had cased...took 17 acres of the best land I had then built a mountain in my front door--That is your Eminent Domain law, more to come. Other farmers just lost a corner, some a small slab...Some got bridges, tunnels and viaducts to move their cattle back & forth. Me for the last 25 years I have had to hire trucks, trailers and once two cowboys with horses to to transport my cattle four or five times each & every year.across Parkway..

About 2 years ago another Telephone or Cellular built a similar tower about 2 miles East of us for the same purpose. That old woman that sold the land for \$25,000.00 only got \$5,000.00 Some said they blindfolded her, anyway she lost a sweet \$20,000.00.....That company showed more respect to our community than you people, they installed their tower in a remote area no traffic, disturbed nor robbed none of the neighbors.....You people dont care who you hurt or damage...same applies to the sellers couldnt care less for they are very wealthy. Other neighbors not effected or hurt because they have no highway frontage and I am only about 400 ft. away from this monster with many,many guidewires running from the top to the bottom some calls them icicles along with many, many flashing lights. Could I call it a big Christmas trees playing Santa Claus 365 days a year. At my age 67 I plan to cease farming this year & divide, sell that side with highway frontage in building lots.....This will reall hurt my land sale.

Yours truly
